

To make this site work properly, we sometimes place small data files called cookies on your device.

WHAT ARE COOKIES?

A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. The cookie is used to identify your device to the website when you visit again so the site can load your preferences, automatically accept your credentials, or otherwise personalize the experience. Cookies do not store personal information about you, just information identifying your device.

Within your browser settings, you can choose whether to accept cookies. To access Wild Apricot sites as an administrator or a member, you need to enable cookies (which most browsers do by default).

You can also separately control whether to accept third-party cookies – cookies placed by third party services that are integrated into our website.

HOW DO WE USE COOKIES?

The following cookies are placed by our website on your computer or device to support the operation of our website.

The cookie file name is formed by combining the two-character cookie prefix with 5 random characters.

Cookie	Domain	Type ↑↓	Description	Duration
ookielawinfo- heckbox- ecessary	yecrea.eu	Necessary	This cookie is set by GDPR Cookie Consent plugin. The cookies is used to store the user consent for the cookies in the category "Necessary".	1 year

Enabling these cookies is not strictly necessary for the website to work but it will provide you with a better browsing experience. You can delete or block these cookies, but if you do that some features of this website may not work as intended.

The cookie-related information is not used to identify you personally and the pattern data is fully under our control. These cookies are not used for any purpose other than those described here.

THIRD-PARTY COOKIES

When you visit our website some third-party site may place a cookie on your computer or device.

HOW TO CONTROL COOKIES

You can control and/or delete cookies as you wish - for details, see aboutcookies.org. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work
